### SMART IN THE RIGH THINGS!

Some of the most important lessons I have learned in my life, I have learned from my children. Years ago our daughter Anna came home from BYU during Christmas break. She seemed really discouraged. So we had a daddy-daughter talk. She told me that her roommate was really smart. She got straight A's without ever studying. But she was from California and love to party so he hated being at BYU. She often made fun of Anna because she had to study so hard to get good grades. After we had a long talk about it, Anna said one of the most profound things to me I have ever heard in my life. She said, "Dad I know my roommate is smarter than me in school, but I can see that I am smart in the right things". That was a life changing moment for me. I have shared that thought with many of my friends over the years when they need some counsel on doing what was right.
