

# **PLANNED ACTIVITIES**

By Bruce Nelson  
Kalasbell Ward Bozeman, Montana Stake

**No one does anything in life, without it being a planned activity. Even if all of a sudden, we decide to go to the grocery store. We have planned it, at that instant, or we do not go to the store. Vacations, trips, bowling, skiing, dating someone etc. are planned activities.**

**The church is a missionary church. Every activity in the church, is a planned missionary activity. We are encouraged, to bring our non-member friends to church activities and meetings, to hear the word of God.**

**We have missionaries, who go on missions, who have never done missionary work. They do not have a testimony of Christ. They say, "I received my testimony, when I was on my mission."**

**One of the ways for the youth to receive the testimony of Christ earlier, is by doing missionary work. Here is a planned missionary activity for the youth. A Book of Mormon, placement program. Every ward and stake in the church could do this program. It could be done every year.**

**The youth plan it, prepare the forms, and carry it out. They could take pictures and turn them into the church news.**

**Many inactive youth, involved in an activity like this, are touched by the spirit and go on missions.**

**Think how many Book of Mormons placed, appointments set and testimonies increased by the youth.**
